<b>Manufacture Process:</b>	Recycled rubber tires are granulated and compressed in a mould at a high pressure to form the moulded product.
<b>Absorption Characteristics:</b>	Resists most liquids including water, petroleum products and insects.
<b>Temperature Impact:</b>	No adverse physical effect; stiffness will increase in colder temperatures.
<b>Abrasion Tolerance:</b>	Resists abrasive traffic over a long time period.
<b>Rigidity:</b>	Non reinforced, flexible.
<b>Installation:</b>	<b>CABLE GUARDS</b> are designed to be installed on a solid ground. For best results, install mats on a semi smooth surface. Improper installation or usage may result in damage or reduced performance of the product.
<b>Traffic Types:</b>	Pedestrians, dollies, forklifts, light trucks and passenger vehicles.
<b>Safety Features:</b>	<ul style="list-style-type: none"><li>- Gentle contour</li><li>- Yellow warning markings</li><li>- Low slippage surface</li><li>- Low tripping hazard</li><li>- Low puncture hazard</li><li>- Resists snow and ice build up</li><li>- Resists fire</li></ul>
<b>Handling Options:</b>	Forklift, hoisting equipment, labourers.
